

Invention Journal #20

DIRECTIONS: You read or at least skimmed Faigley's *Writing ...* Chapter 19, pages 528-568 (You are responsible for the content of the reading since the content relates directly to the Ethnographic Researched Argument assignment.)

With the reading in mind, respond in writing in your I.J. #20 to these topics. You may use your book to help you since you should have brought your book with you today.

1. A. What is the difference between primary research and secondary research?
B. How will you need to use both for your assignment?
2. A. How will a research question help your research team?
3. A. The scope of your research is local or regional, and you will add to a national or international body of knowledge about the topic. What are at least FIVE sources you might use?
4. How will a working thesis be important once your research group has done some preliminary research?
5. Explain how to tell if an article is from a scholarly source or not. (We worked on knowing how to identify scholarly sources during semester one – ENG124.)
6. What are the two main qualities a SOURCE for your research should have?
A. Source Quality 1
B. Source Quality 2
7. What are some benefits to following Faigley's advice about conducting interviews?
8. You might want to conduct a survey of individuals during the scope of the project. What are at least TWO pieces of advice from Faigley about making and administering surveys?
A. Advice 1
B. Advice 2
